SUMMARY

From NBC Sports and Victoria's Secret to Visa and the NFL, I've worked with some of the world's biggest brands over the past 15 years. I've worked at medium-sized companies, including several advertising agencies, as well as large enterprises, and am currently focused on consulting.

My expertise within the digital realm spans a wide variety of disciplines including technical leadership, front-end development, e-commerce, mobile-first responsive, user experience design and digital marketing. I specialize in bridging the gap between the visual, UXD and development and bringing to life experiences that connect with consumers and a pleasure to use.

- Technical lead for Fortune 500 companies with over 15 years' experience in digital.
- Experienced and comfortable in agency, enterprise, and start-up environments.
- Effective team leader with the ability to build consensus and cohesiveness within a team.
- Collaborative, inclusive and flexible. Strong interpersonal and communication skills.
- Resourceful individual contributor with extreme attention to detail, the ability to creatively problem-solve and complete tasks with minimal supervision.

EXPERIENCE

Inkreeel (basedin.nyc)

December 2017 – present

New York, NY

Cloud software developer

- Under the umbrella of my own consulting agency, I partner with some of the best-known marketing agencies globally, as well as individual clients.
- Clients include VineSpring, Pip's Island, Kim Seybert and Mezocliq.
- Former clients include Razorfish, Ruder Finn, CAHG, Story Worldwide, Geno.me, Mount Sinai School of Medicine, Rutgers University and Schering-Plough.
- Develop cloud-hosted web applications employing data science and meaningful analysis to draw out new business insights. Every project is custom built to meet an initial specific business need, and continuously evolves as new insights are gleaned from the data as it's being analyzed, leading to continuous improvement in KPIs.

Featured client: Kim Seybert

- Drive bottom-line growth by aligning efforts across e-commerce development and digital marketing to business KPIs. Lead and make direct contributions to those efforts.
- Refactor front-end code base, implement best practices and a Node.js-based toolchain to reduce time-to-first-render by over 80%, to under 500ms.
- Implement user behavior analytics and A/B testing. Streamline mobile checkout including through checkout flow optimizations, Apple Pay and PayPal One Touch.
- In a trailing-3-month period, increase conversion rate 234% over e-commerce industry average, ROAS by 316%, and revenue by 42% YOY, normalized for visitors and promotions.

Mezocliq

July 2015 – November 2017

Director, Development

- Ownership of development life cycle for company's public facing website. Tasked with creating a unique enterprise marketing approach drawing on the consumer space.
- Leveraged standards-based approach using HTML5, CSS3 and vanilla ES8 to create an immersive experience with full screen animations. Engineered to be mobile-first responsive with progressive enhancement for various form factors and per-platform capabilities.
- Web application development for end-to-end enterprise processes on an SOA based platform designed for real-time big data streaming using Thrift, Kafka, Cassandra and Hadoop.
- Use GitFlow branching to reconcile disparate codebases in a Kanban environment, managing business requirements for feature criticality, frequent changes, and rapidly evolving release deadlines, establishing a record of meeting deliverables on-time and on-budget.

Cosgrove Associates

March 2012 – February 2014

New York, NY

Director, Interactive Development

- Practice lead of full-stack development including front-end, mobile, UX, IA, delivery optimization, backend development, and DevOps, including CI/CD.
- Hands-on leadership, innovation evangelism, and cross-browser best-practices implementation using semantic HTML5/CSS3, responsive design, AJAX, transpiled ES6, and jQuery 2 in a lightweight Agile environment.
- Tight-kit collaboration with account, strategy, creative and production teams to represent and promote the agency's digital media and interactive development services across all channels.
- Executed a rapid mitigation strategy to meet a key client's campaign launch target. Triaged and managed technology layer interoperability, and led solutions architecture and implementation.
- Clients included Visa, Barclays, NFL, Chase, Hyatt, Apple, Disney, US Airways, PNC Bank, BB&T, Virgin America, UBS, Ritz-Carlton, Sallie Mae, ADP, IOC, and AARP.

Victoria's Secret

June 2011 – March 2012

New York, NY

Senior Front-End Web Developer

- Delivered rich user experiences using a modern front-end stack (HTML5, CSS3, and jQuery.)
- Develop entirely new e-commerce templates by leveraging APIs exposed by our CMS.
- Developed coding standards and implemented front-end technologies, frameworks and libraries.
- Added new features and functionality in front-end codebase and presentation-layer technology portfolio, including ingestion and processing of XML and JSON data feeds.
- Collaborated with cross-functional teams to establish timelines and feature requirements.
- Delivered every project on budget, well before it was due.
- Prepared and communicated status updates, potential issues and opportunities to the business.
- Evangelized emerging trends, best practices, site compatibility, and accessibility standards.

NBC Sports

July 2007 – June 2011

Stamford, CT / New York, NY

Senior Interactive Developer

- Managed NBCSports.com relaunch effort and led development of front-end codebases.
- Developed code designated “best in class” by 360i in comScore’s Top 10 Digital Media Sports.
- Supervised and trained developers, designers and editors on CMS best practices.
- Planned and executed transition effort to bring development in-house/on-premises.
- Developed WordPress.com VIP Partnership with Automattic. Evangelized WP within the company.
- Contributed to WordPress Core branch to implement new template functionality.

SELECTED PROJECTS with publicly accessible links

Meridian Capital *(2020)*

<https://www.meridiancapital.com/>

- Led front-end development efforts for lightweight ES9, Node.js, WordPress site launched just before Gutenberg release, using Advanced Custom Fields to implement role-based editorial capabilities within

Kim Seybert *(2018)*

<https://www.kimseybert.com/>

- Achieved significant revenue growth by focusing development on KPI’s.
- Overhauled codebase with ES6 enhancements, and optimized development workflow with cloud-based CI/CD, Git and a Node.js-based toolchain.
- Implemented A/B testing across the site and developed custom dashboards for real-time views into business targets including user and checkout flows, leading to progressive and rapidly evolving, moving-target improvement in KPIs across all measurable bottom-line metrics.

Mezocliq *(2016)*

<https://mezocliq.basedin.nyc/>

- Developed the company's public-facing website, prototyped and implemented motion graphics.
- Leveraged the latest web technologies and libraries for hardware-accelerated animations.

Virgin America *(2013)*

<https://virgin.basedin.nyc/>

- Created an experiential marketing microsite for co-branded Virgin America card with Barclays.
- Responsible for front-end and motion graphics development, hand-in-hand with Creative.
- Close coordination of implementation and deployment with agency client’s SVP and his team.

Barclays Arrival (2012)

<https://arrival.basedin.nyc/>

- Developed the digital campaign for the highly successful Arrival credit card.
- Focused on realizing the creative vision while making the website very quick to load and navigate.

NFL Extra Points (2012)

<https://www.nflextrapoints.com/>

- Developed a dynamic site that automatically generated 100+ pages, customized for 32 teams, each custom tailored to feature promotions specific to that team.
- This project established Cosgrove's ongoing relationship with Barclays, resulting in over a dozen additional digital campaign launches.

NBCSports.com (2011)

<https://www.nbcsports.com/>

- Responsible for all front-end development of NBCSports.com. “Best in class” code per 360i.
- Managed stakeholder interactions throughout the design and development process.
- Close coordination with NBC ArtWorks team on the design—this was their first digital project.
